Homeless Management Information System (HMIS) Policies and Procedures Recommended Changes

Erin DeRycke, Director, Data Analytics, 2-1-1
Orange County (211OC), Orange County
United Way and Felicia Boehringer, CoC
Administrator, Office of Care Coordination

Background

- The HMIS Policies and Procedures was approved by the CoC Board in August 2024, with the exception of the Client Record Request policy
- The CoC Board requested additional research be done to determine if the Client Record Request policy should be updated to allow clients to request their full record in HMIS
- Additional policies and forms are being updated to provide clarity, reflect new guidance, or reflect new internal processes

Process

- 211OC met with the HMIS Working Group in November to discuss revisions, and a user feedback period occurred from November 15th – December 1st
- Proposed changes to the Policies and Procedures were presented to the Lived Experience Advisory Committee on December 4th
- Progress on the revisions were presented to the Policies, Procedures, and Standards Committee on December 10th
- Client Record Request Survey feedback period: 1/14 – 1/31
 - 211OC released a survey to understand how agencies are currently handling record requests, if agencies have their own internal policies, and how many requests agencies are receiving

Working Group Feedback

- Concern around liability for agencies if case notes are released to clients
- More accessible data could improve client relationship
- Users would like more guidance around case notes data entry and how to talk to clients about their data; suggested limiting case notes in record requests to those entered after training was completed
- Sharing location data may be a safety concern if the client doesn't properly dispose of that information
- Full HMIS record may be too much information for clients
 - Allow clients to select what data they would like to see

User Feedback

- Edit Client Consent Form to change “agencies contributing data to HMIS” to “agencies with access to HMIS”
- More guidance for agencies on how to process client record requests

LEAC Feedback

- Client Record Requests should include all data in the client's file
- The process to request records should be a single step, and streamlined to make the process easy for the client
- Case notes are a common request by clients; however, it is important to balance the potential impact to the system and service providers if case notes are provided.
- Clients need to be made aware that it's possible to request their HMIS record
- Service Providers need to be trained on how to help the client get the information they want
- Clients are interested in checking their Coordinated Entry System (CES) status.

See responses to LEAC feedback in Item 2. Attachment A

PPS Committee Feedback

- Train staff to assist clients with simple requests that don't require their full HMIS record
- Find out how agencies are currently handling record requests, and how many they are receiving
- Process should be client-focused

Client Record Request Survey Feedback

- Most agencies are sending HMIS record requests to the HMIS team
- Some agencies provide clients with copies of their paper files if asked
- Agencies receive very few HMIS client record requests
- The client record request process should be as efficient as possible

Client Record Request Considerations

- Pulling a client's full HMIS record is time-consuming for HMIS staff (2 hours or more per request)
 - If many requests are received at the same time, or records being requested are large, the team may need to limit hours that can be spent on these requests each month
- Since September 2020, all users have completed training on best practices for case notes data entry
- Agencies are not able to pull a client's complete HMIS record due to permission settings
- Legal Council suggested a review of each agency's liability insurance if case notes are being shared with clients

Client Record Request Policy Changes since December Meeting

- Policy is no longer two steps for a client to request their complete record
- Requests can be submitted to an agency currently participating in HMIS, not just agencies the client has been served by
- Agencies can provide clients with information from their HMIS record without submitting a request to the HMIS Lead
- Case notes are released at the discretion of the agency that entered them

Update: Client Record Requests

- Clients requesting specific information in their HMIS record may work directly with an agency participating in HMIS
 - Case notes may be shared by the agency that entered them at the agency's discretion
 - Agencies can only provide information that they have access to view in HMIS
- Clients that want to receive their full HMIS record may submit a record request by contacting a Service Provider currently participating in HMIS
 - Clients will be able to select the types of data they would like to review
 - Case notes are not included in the full record request submitted to the HMIS Lead
- Clients may request edits to data they contributed to HMIS
 - Clients that wish to edit data for a specific project must contact the agency directly to request the edit
 - If a project is closed or the agency administering the project is no longer participating in HMIS, no edits can be made.
- Data contributed by a participating agency (enrollment history, services, case notes, etc.) cannot be edited at a Client's request
